

Our Sky-Bridge system (Air & Sea Service) allows shipments to move by air from anywhere in the world to Korea and then to the Chinese ports of Qingdao, Dalian, Weihai, Yantai, Tianjin and Dandong by ocean with regular ferry schedules. In addition to above, we also serve to the Japanese ports of Shimonoseki, Hakada, Yokohama, etc and to the Russian ports of Vladivostok, Sakhalin, etc on request & confirm basis.

The Solution for moving your valuable shipment to Qingdao, Weihai, Yantai, Dalina, Dandong and Tianjin in China.

Air & Sea Service

# SKY-BRIDGE

**KOREAN AIR CARGO**

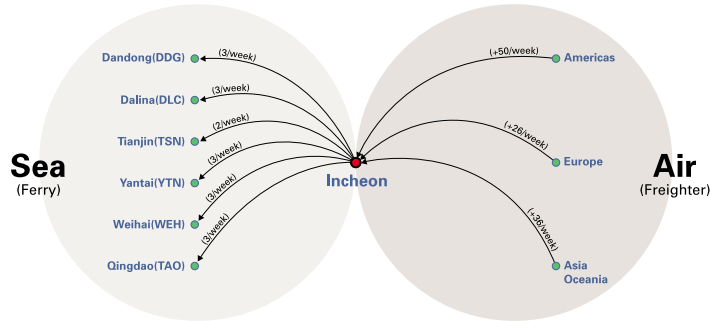

For more information, please visit our website at <http://cargo.koreanair.com>

**KOREAN AIR CARGO**

## Fast Service

With continued improvements on our Sky-Bridge program, we are able to shorten the average transit time to 3 days from anywhere in the world to the Chinese ports listed below regardless of cargo size and weight. Furthermore, customs clearance in seaport is faster and easier than that in airport.

## Safer Than by Truck

If your valuable shipment is fragile or sensitive to wet damage, we recommend using our Sky-Bridge service rather than the trucking service to its final destination. There is little movement in a huge vessel on the very calm Yellow Sea and loading containers in the belly of a ferry prevents any kind of wet damage.

## Technicians with Intensive Expertise

With a team of highly trained and qualified technical experts, our Sky-Bridge Service can handle heavy and large shipments even with unusual configurations. Korean Air also has several special containers equipped with roller beds where 96 X 238.5 inch pallet can be loaded.

## Reliable Schedule

Your valuable shipment is guaranteed to move as scheduled with huge capacity on a ferry along with on time operation. If the shipping of large quantities is needed, we recommend our Sky-Bridge Service, for it offers the movement of the cargo in one lot. You can inform your partners of the arrival time of your valuable shipment at the final destination, using the following table.

## Real Time Tracking

Korean Air offers real time tracking services for all of our shipments from origin to final destination on our cargo website ([//cargo.koreanair.com](http://cargo.koreanair.com)). Your valuable time should not be wasted on tracking shipments via truck within China.

Status	Date	Flight	Route	Place	Weight	Departure	Arrival
	08-JUN	KE 258	JFK-ICN	1	635 K	08-JUN 03:10	18-JUN 09:00
Departed from JFK to ICN.							
	18-JUN	KE4271	ICN-TAO	1	635 K	18-JUN 17:00	11-JUN 09:00
Departed from ICN to TAO.							
	11-JUN 11:00	-	TAO	47	635 K	-	-
Notified to CONSIGNEE/CONSIGNEE.DNR0 at TAO.							
	11-JUN 13:00	-	TAO	1	635 K	-	-
Delivered Shipment to CONSIGNEE0 at TAO.							

(Ferry Schedule from ICN to the destination)
